The most profitable trade, some dealers think is in things that cost nothing, sell for a trifle, wear out or break, and make room for more.

For instance, lamp-chimneys; but there is a sort that almost never breaks, except by violence. It takes some some fluck for a grocer or crockerymerchant to sell it. One chimney may last for years; he may starve before he can sell another.

Macbeth & Co., Pittsburgh, make that chimney and call it "pearl-top;" there's a string of pearl-like beads on the top of it.

The National young Men's Christain association, colored, has issued a general appeal for aid in building a national headquarters edifice in Louisville, Ky. ### An Atlanta Lady's Sad Condition.

"Abut two years ago a sore came on my nose. I called in a physician who could arrest it only for a few days, when it would appear as bad as ever. Finally it became permanent, and despite the constant attention of several physicians it continued to grow worse, the discharge from the ulcer being exceedingly offensive. This was my condition when I commenced to take Swift's Specific (S. S. S.) about one month ago, but I am now happy to say that after taking four large bottles of your wonderful medicine my nose is entirely well, and my general health better than it has been in ten MRS. ## The Lady Next Boor.

Mrs. W. envied the lady next door because the always seemed so well and happy. "She enjoys life and I don't," said the discontented woman. "How I would like to change places with her!" last she made the acquaintance of the object of her envy, and this is what the lady told her: "Happy? Of course I am, for I enjoy perfect health." My dears Mrs. W., your face tells me why you are not happy. You are suffering from functional derangements. I was a martyr to female weaknesses for years, but Dr. Pierce's Favorite Prescription cured me, as it will you if you try it. It is guaranteed to give satisfaction in every case or price (\$1.00) returned.

## When I Was Sick!

My room looked like a drug store, I had so many bottles in it. The more I dosed, the worse off I was. Finally, I paid my doctor and told him he needn't come any more. I was troubled with Chronic Rheumatism, and couldn't get out of bed alone. Six Bottles of Sulphur Bitters cured me .- Benj. Fitch, Adams House,

POMEROY and Middleport boast of the champion lady pedestrian of the State. Miss Lizzie Schreiner lives at Middleport, two and one-quarter miles below the Telegraph office in Pomeroy, where she has been employed as a compositor for the past eight years. Every week day, winter and summer, for the eight years she has walked to and from her work, with but six weeks rest. She works ten hours per day at her case. Her walks average twenty-seven miles per week through rain and sunshine, snow, mud and summer heat, and she frequently has to clamber around the bluffs to get by flooded districts. This gives her 1,404 miles per year, or 11,232 miles in the eight years. Subtracting 162 miles for the six weeks she rested, she has 11,070 miles still to her credit. During the eight years she has actually performed 24,600 hours of labor, and has set about 19,680,000 ems of type. When she began walking and working she was not enjoying good health, but now she is rosy-cheeked and vigorous, and thinks no more of a jaunt of half a dozen miles than most ladies do of walking around a square in the city.

## THE BRIDGE BROKE,

And About Twenty-Five Persons Bruised and Malmed.

There was a serious accident Sunday evening at Beyerle's Park, a summer resort in the southern part of Cleveland, O. At least five thousand people had assembled to see a man jump from a cable stretched across a miniature artificial lake. People stood all around the lake, and a hundred or more were on a rustic foot-bridge about ten feet above the ground, and extending from a bluff 'out across the lake. jumper made the descent at about 6:80 o'clock. He struck the water near the shore, and the people on the bridge made a rush for the place. Nearly all of them were massed on a thirty-five foot span adjoining the bluff. The structure fell with a crash, going down in the middle. The footpaths under the bridge were crowded with people, and upon these the timbers fell, while those on the bridge were thrown in a heap in the center of the span where it struck the ground. At least twenty-five persons were injured, more or less seriously, but only eight were hurt so badly that they had to go to a hospital. Following is a list of the seriously injured: James Sanford, fifty-two years, right leg frac-tured and internal injuries, probably fatal; Rudolph Woodrick, twenty-oight years, right leg fractured and head bruised; Mrs. Ru-dolph Woodrick, spine and shoulder hurt; Jesse Caldwell, seventeen years, ankle fractured and arm badly injured. Bertha Mumter, fifteen years, right hip fractured and internal injuries. Anna Thoman, fourteen years, right ankle broken. Mary Thoman, twenty-two years, back and head injured. Unknown one-legged man, leg broken. Had the bridge broken over the lake the list of dead would have been alarmingly large.

## SENSATIONAL DISCOVERY.

Chicago Officials Declare That Diseased Meat Le Prepared for Sale in the Home Market

With inspectors known to be watching in the slaughter-house of Jacob Hesa, Chicago, to prevent the surreptitious preservation of the meat of lumpyiaw cattle, the forbidden practice was discovered in full blast-so at least the representatives of the board of health department declare. The inference drawn is that at cheap prices, but all profit, the tainted meat was to be marketed through the peddlers in the Artisan districts in Chicago. Apparently each elevator load of meat, before being hoisted to the upper floors of the slaughterhouse for destruction in rendering vats, was for a moment lowered to the base ment and the hindquarters, the most valuable meat, secretly unloaded, after which the elevator was again started upward to the rendering vats. Just twenty-seven hundred pounds of the alloged diseased meat was found hidden away in the basement. The discovery was made by city officials, and is being used by them to support their oft-made charge that the State inspectors are remiss, if not corrupt, and that the inspection should be done by the city.
